

NT MARBLE & GRANITE product number # NTMG 8 / 32

PRODUCT

NT MARBLE AND GRANITE maintain an optimum brilliance on polished granite, marble, travertine, corian, slate, and synthetic stone counters, tables, walls, tile, grout, and more! (**do not use on floors**)

The water-based cleaner used to enhance stone or prepare the surface for our Sealers applications. When used regularly, it will enhance the natural beauty of the stone rendering it clean and silky smooth with a brighter finish. Removes oil, grease, and dirt easily. Repels hard water minerals, soap scum, fingerprints, food spills, soil, and grim. **Keeps surfaces cleaner longer - reduces maintenance by 80%.**

It provides a durable Nano Scale repellent film.

CONDITION OF SUBSTRATE

The substrate to be coated must be completely clean, grease-free and absolutely dry, use **NT RESTORE** for optimal preparation.

PRODUCT APPLICATION TOOLS

It is supplied ready to use. The product is also suitable for spray application. **Wear gloves and a mask while using the product.**

APPLICATION

Preparation:

The stone surface should be cleaned, dry and free of waxes or other surface coatings. New cement grout joints should be allowed to fully dry prior to application. Unless otherwise noted in the Application and Methods section, apply when the ambient temperature is between 45°F / 90°F. The ideal application temperature range is between 60°F / 80°F. **Do not apply in direct sunlight.**

Apply a generous amount of **NT RESTORE** to an Eliminator Pad or to a common medium / hard pad.

Rub the pad firmly in a small circular pattern over the surface until it is fully restored. Do a small area at a time. **Allow drying until appears chalky.** Buff using a microfiber cloth. Apply a second coat if necessary.

The use of a medium-hard pad buffing machine is recommended for application on large surfaces or to facilitate polishing on a medium surface. You can also use the buffing machine to remove it, once dry using a circular microfiber.

Important: After using the **NT RESTORE**, once it has been dried and removed, clean the surface with 75% water 25% alcohol compound to remove the chemical residues of previous detergents or the NT Restore residues.

Application:

For polished stone, let stand for 30 minutes and lightly remove using a Micro Fiber Mop Pad Assembly or a microfiber cloth before second coat is applied. If a residue is visible remove with a wet Microfiber Mop Pad Assembly or an Applicator Pad.

For porous stone, let stand for 30 minutes and remove using a Micro Fiber Pad Assembly or a Micro Fiber Cloth before applying Second Coat and let stand for 30 minutes. If a residue is visible remove with a wet Microfiber Mop Pad Assembly or an Applicator Pad.

The used microfiber cloth have to be washed with hot water, no bleach or fabric softener. Do not iron.

The effect of the applied surface will last at least **8 months**.

Our products are specifically designed to substantially reduce the time and effectiveness of cleaning and maintenance processes, with the consequent economic savings for companies and individuals in products and working time.

SAFETY INSTRUCTIONS

In case of skin contact: Wash with soap and water.

In case of eye contact: Rinse immediately with plenty of water for at least 10-15 minutes.

In case of ingestion: Rinse mouth immediately.

After swallowing: Instantly call the doctor / poison center. Do not induce vomiting.

General information: Consult a physician if problems persist. In case of indisposition seek medical advice.

Keep out of reach of children.
