

NT STEEL Product number # NTS 32 / 16

USE & PRODUCT PROPERTIES

The product **NT STEEL** with Micron **Anti-Microbial cleans and polishes** a variety of stainless steel surfaces - clean range hoods, refrigerators, dishwashers, ovens, microwaves, sinks, cook tops, and barbecues!

Environmentally friendly water-base cleaner dissolves and lifts oily grime and dirt for a quick wash without water.

Removes oil, grease, and fingerprints from all difficult to clean stainless steel surfaces.

Excellent general cleaner for most stainless steel architectural materials and surfaces.

Do not use on lacquer finishes and some painted surfaces. Do not use acidic or abrasive-cleaning chemicals on a treated surface.

CONDITION OF SUBSTRATE

The surface must to be dry and preferably clean for the first time.

PRODUCT APPLICATION TOOLS

Use a clean and dry microfiber cloth. The product is supplied ready to use. The product is also suitable for spray application.

APPLICATION

Preparation for damaged surfaces:

Apply a generous amount of **NT RESTORE** to an Eliminator Pad or to a common medium / hard pad.

Rub the pad firmly in a small circular pattern over the surface until it is fully restored. Do a small area at a time.

Allow drying until appears chalky. Buff using a microfiber cloth. Apply a second coat if necessary.

The use of a medium-hard pad buffing machine is recommended for application on large surfaces or to facilitate polishing on a medium surface. You can also use the buffing machine to remove it, once dry using a circular microfiber.

Important: After using the **NT RESTORE**, once it has been dried and removed, clean the surface with 75% water 25% alcohol compound to remove the chemical residues of previous detergents and the NT Restore residues.

NT Steel Application:

- 1- The Steel surface should be cleaned, dry and free of waxes or other surface coatings.
- 2- Simply spray on and wipe off using a micro fiber cloth; then buffing surface until dry.
- 3- Each application builds on more protection

Maintenance:

NT Nano Blue reduces the surface tension and allows surfaces to stay clean for five times longer, using fewer products and cleaning less often. It replaces a multitude of products, glass cleaners, polishers, and others.

The used microfiber cloth have to be washed with hot water, no bleach or fabric softener. Do not iron.

The effect of the applied surface will last at least **6 months**

Our products are specifically designed to substantially reduce the time and effectiveness of cleaning and maintenance processes, with the consequent economic savings for companies and individuals in products and working time.

SAFETY INSTRUCTIONS

In case of skin contact: Wash with soap and plenty of water.

In case of eye contact: Rinse immediately with plenty of water for at least 10-15 minutes.

In case of ingestion: Rinse mouth immediately.

After swallowing: Instantly call the doctor/ poison center. Do not induce vomiting.

In case of indisposition seek medical advice.

General information: Consult a physician if problems persist.

Keep out of reach of children.
