

PRODUCT

NC SHINE Is a clear water-base complete bodywork treatment, generating an anti-stick and easy-to-clean surfaces. The applied material produces a three-dimensional net matrix that reduces the sticking ability of dust and dirt on the metal & Fiberglass surfaces. Water pearls easily off.

Enhance original colors providing **high gloss effect**. Anti-Static and anti-scratch properties. **Non-yellowing properties**.

CONDITION OF SUBSTRATE

The substrate to be coated must be cleaned, grease-free and **absolutely dried**. Use **NT RESTORE** for optimal preparation. It is very important that the surface is completely clean and decontaminated so the coating can perform its function of integration into the metal structure.

PRODUCT APPLICATION TOOLS

It is supplied ready to use. Depending on the substrate the product can be applied with a microfiber applicator pad or paint rollers (microfiber-flocking). Use and re-use are only recommended upon carefully cleaning off application tools. The product is also suitable for spray application. Wear gloves and a mask while using the product.

Before using make a test on a small area.

APPLICATION

Pre-Cleaning: Complete Car Wash is highly recommended

- 1- Wash the Car with a High-pressure machine with clear water.
- 2- Apply foam cleaner or snow foam.
- 3- Wash the car with a High-pressure machine with clear water, rinsing procedure.
- 4- Cleaning procedure. Neutral cleaner and water (manually)
- 5- High-pressure machine with clear water to remove cleaners residues.

Preparation: Apply a generous amount of **NT RESTORE** to an Eliminator Pad or to a common medium / hard pad. Rub the pad firmly in a small circular pattern over the surface until it is fully restored. Do a small area at a time. Allow drying until appears chalky. Buff using a microfiber cloth. Apply a second coat if necessary.

The use of a medium-hard pad buffing machine is recommended for application on large surfaces or to facilitate polishing on a medium surface. You can also use the buffing machine to remove it once dry, using a circular microfiber.

Polishing with **NT RESTORE** is a recommended step for the correct coating application.

After using the **NT RESTORE**, once it has been dried and removed, clean the surface with 75% water 25% alcohol compound to remove the chemical residues of previous detergents and the NT Restore residues.

Application:

Avoid direct sunlight! Apply the coating in dry conditions and never in rain.

- 1- The product must be applied by rubbing on, or by spraying and afterward rubbing on.
- 2- Use a foam pad applicator / or lint-free cloth.
- 3- Work on 2x2 areas horizontal and vertical movements. 0.50 oz which is the approximately optimal amount.
- 4- The material has to be **completely** rubbed on the surface until no drops will appear.
- 5- Excessive products can be removed with a clean dry microfiber.
- 6- Residues has to be gently removed within 20-30 min. Until the surface shines.
- 7- The coated surface has to be dried for 1 Hour at room temperature. Complete curing 24 Hours.

Maintenance:

NT NANO BLUE Reduces the surface tension and allows surfaces to stay clean for five times longer, using fewer products and **cleaning less often**. It replaces a multitude of products, glass cleaners, polishers, and others. The effect of the applied surface will last at least **12 months**.

The used microfiber cloth have to be wash with hot water, no bleach no softener. Do not iron.

Our products are specifically designed to substantially reduce the time and effectiveness of cleaning and maintenance processes, with the consequent economic savings for companies and individuals in products and working time.

SAFETY INSTRUCTIONS

In case of inhalation: Move injured person into the fresh air, keep warm and allow to rest.

In case of skin contact: Change contaminated clothing after contact with skin, wash immediately with soap and plenty of water.

In case of eye contact: Rinse immediately with plenty of water for at least 10-15 minutes.

In case of ingestion: Rinse mouth immediately.

After swallowing: Instantly call for doctor / poison center. Do not induce vomiting.

General information: Consult a physician if problems persist. In case of indisposition seek medical advice.

Keep out of reach of children.
