

TK STONE Product number NTS-32 TK

USE & PRODUCT PROPERTIES

The product **TK STONE** is a water-base penetrating sealer which produces an invisible and anti-stick barrier against oil water and stains. It is a safe and virtually odorless product and does not contain any toxic or dangerous solvents.

It can be used to protect all-natural stones such as marble, granite, limestone, travertine and for manufactured stone.

For use on Polished Stone.

CONDITION OF SUBSTRATE

The substrate to be coated must be completely cleaned, grease-free and absolutely dry. Use **NT RESTORE** for optimal preparation.

PRODUCT APPLICATION TOOLS

It is supplied ready to use. The product is also suitable for spray application.

Wear gloves and a mask while using the product.

APPLICATION

Avoid direct sunlight! Apply the coating in dry conditions and never in rain.

Preparation:

Apply a generous amount of **NT RESTORE** to an Eliminator pad or to a common medium / hard pad.

Rub the pad firmly in a small circular pattern over the surface until it is fully restored. Do a small area at a time.

Allow drying until appears chalky. Buff using a microfiber cloth. Apply a second coat if necessary.

The use of a medium-hard pad buffing machine is recommended for application on large surfaces or to facilitate polishing on a medium surface. You can also use the buffing machine to remove it once dry, using a circular microfiber.

Important:

After using the **NT RESTORE**, once it has been dried and removed, clean the surface with 75% water 25% alcohol compound to remove the chemical residues of previous detergents and the **NT Restore** residues.

It is very important that the surface is completely cleaned and decontaminated so the coating can perform its function of integration into the glass structure. Polishing with **NT RESTORE** is an essential step for the correct coating application.

Remove and repair scratches and non-fixed portions. On areas that are difficult to reach, such as cavities or drainage channels, etc. must be dried additionally with absorbent cloths or blown dry with compressed air.

Application:

All areas must be covered.

After application allows to absorb and dry for 1 - 2 hours. Inspect surfaces and if a residue or film visible remove with water. Some polished granite is very porous and require a second application or using **NT STONE** for porous surfaces.

Re-apply one-second layer within minutes of the first layer depending on the level of protection required.

Maintenance:

NT Nano Blue reduces the surface tension and allows the surfaces to stay clean for five times longer, using fewer products and cleaning less often. It replaces a multitude of products, glass cleaners, polishers, and others. **DO NOT USE ON FLOORING**

The effect of the applied surface will last at least **12 months**. (For highly porous surfaces apply up three layers)

The used microfiber cloth have to be washed with hot water, no bleach or fabric softener. Do not iron.

Our products are specifically designed to substantially reduce the time and effectiveness of cleaning and maintenance processes, with the consequent economic savings for companies and individuals in products and working time.

SAFETY INSTRUCTIONS

In case of skin contact: Wash with soap and plenty of water.

In case of eye contact: Rinse immediately with plenty of water for at least 10-15 minutes.

In case of ingestion: Rinse mouth immediately.

After swallowing: Instantly call the doctor / poison center. Do not induce vomiting.

General information: Consult a physician if problems persist. In case of indisposition seek medical advice.

Keep out of reach of children.
